Governor’s Road Bridge Rehabilitation
over Moore Park Ravine

Contract: 25ECS-BE-06PM
Start Date: August 2025 End Date: March 2026
**Timeline is subject to change.*

The City of Toronto is planning to rehabilitate the Governor’s Road Bridge over Moore Park Ravine. This work will ensure that the bridge and road meet today’s standards and remain safe into the future. The project is part of the Council-approved 2025 Capital Works Program.

MAP OF WORK AREA

WORK DETAILS

- The City’s contractor will:
- Repair and refurbish the Governor’s Road Bridge over Moore Park Ravine;
 - Patch Repair the concrete sidewalks and parapet walls;
 - Patch repair the concrete deck, soffit, and approach slab;
 - Patch repair and/or reface the bridge piers and abutments, and wingwalls;
 - Replace the asphalt surface and waterproofing; and
 - Replace Streetlighting.

Construction will take place in the following stages:

Stage	Expected Dates	Traffic Management
1	Late August 2025 – October 2025	• Traffic will be reduced to one lane of bi-directional vehicular traffic Monday to Friday from 10 a.m. to 2 p.m. and Saturdays from 9 a.m. to 5 p.m.
2	Following Completion of Stage 1	The bridge will be closed to all non-emergency vehicles.

		The current turn restrictions at Nesbitt/Bayview will be temporarily lifted when the full closure begins.
3	Following Completion of Stage 2	• Traffic will be reduced to one lane of bi-directional vehicular traffic Monday to Friday from 10 a.m. to 2 p.m. and Saturdays from 9 a.m. to 5 p.m.

Turn Restrictions and Nesbitt Drive/Bayview Avenue

The current turn restrictions at Nesbitt and Bayview will be temporarily lifted during the full bridge closure. They will be reinstated once the bridge is partially reopened during construction and will remain in place after construction is complete.

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise, and other inconveniences. The City will make efforts to reduce impacts. We appreciate your patience.

	Work Hours: Work will take place from 7 a.m. to 7 p.m., Monday through Friday, and 9 a.m. to 5 p.m., Saturdays. No work will occur on Sundays and Statutory holidays.
	Pre-Construction Inspection: The City hired contractor will conduct inspections of properties within 30 metres of the construction area before construction starts. Affected properties will receive a separate notice to set up an appointment for the inspection. The inspection will look at the exterior and interior of properties to verify existing conditions. Although participation is voluntary, the City encourages all property owners to participate. Without the survey, it will be difficult to confirm any claims of damage caused by construction. All inspection staff will wear photo I.D. and carry photo equipment for this work.
	Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the work zone. Access for emergency vehicles will be maintained at all times. At least one sidewalk will remain open at all times. Temporary signage will direct pedestrians to safely cross the bridge.
	Traffic Management: Road users should expect delays and increased traffic on nearby main and side streets. Traffic will be reduced or restricted in stages. Full details on traffic impacts are provided in the table above.
	On-Site Communication: There are times when contractors need to communicate with homeowners about what is happening on-site. This could be about driveway access, water shut offs, pre-construction inspections, and site restoration work (landscaping, installing pavers etc.). Contractor's staff will be identifiable by their high-visibility company branded clothing. If you need to speak with staff on the construction site, please ask for the Site Inspector
	Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Field Ambassador listed below.
	Restoration: The construction work area will be restored with sod, concrete and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October).
